We invite the parents of all 2015 Grade 5 students to attend an iPad skills and security workshop evening. The session will be run by David O’Kane and is designed to empower parents as govenors of the iPad devices their students use. It is a hands-on workshop so if you already have the iPad device your child will be using next year then bring it along and you will have an opportunity to explore security settings and management strategies. Of course, if you don’t have an iPad to use yet, it will still be of benefit for you to attend.

If you plan to attend the information evening, please return the below slip to your child’s class teacher by Friday 5 December.

Gillian Brookes
Principal
